East Greenwich  
Education  
Foundation

The East Greenwich Education Foundation (EGEF) is an independent 501(c)(3) nonprofit organization that promotes excellence in public education.

The EGEF awards grants to educators that enhance the classroom experience through innovative, creative and sustainable approaches to teaching and learning.

The EGEF funds initiatives at all six public schools in East Greenwich. We work closely with the schools, administration, teachers, parents, and others in pursuit of our mission.

The EGEF does not supplant the school district budget, but rather funds new programs and initiatives beyond its scope.

Excellence in public education requires resources and your contribution is a powerful investment in our future.

We thank everyone who shares in our vision for the children of East Greenwich.

Over the past 10 years,  
the EGEF has awarded

61 GRANTS  
TOTALING OVER \$300,000

The continued success  
of the EGEF mission  
depends on the support  
of our community.

PLEASE DONATE TODAY!

## 2018 GRANTS

Total Awarded: \$30,100

### **21st Century Learning Environment at Cole**

Redesigns two learning areas to facilitate open exchange of ideas and encourage collaboration.

### **Collaboration & Innovation at Hanaford**

Creates a dynamic, technology-infused hub for schoolwide learning while breathing new life into the library.

### **Virtual Reality at Frenchtown**

Provides devices and goggles to be used with the Google Expeditions App for virtual reality field trips and experiences.

### **3D Printer at EGHS**

Supports the development of STEAM activities that align with concepts studied in various science classes.

### **Active Learning Library at Eldredge**

Transforms the library into an active learning center.

### **Reading Technology at Eldredge**

Aims to close the reading achievement gap using iPads equipped with meaningful applications.

### **Mindfulness at Meadowbrook**

Funds a workshop and materials to bring focus and self-regulation to all classrooms while fostering social and emotional learning.

### **Orton-Gillingham at Frenchtown**

Supports a multi-sensory reading program that helps all students.

### **Brainology at Eldredge**

Brings new mindsets and learning strategies to the classroom through interactive and multimedia curricula.
